🔄 Light + Dark Mode UX

✅ Add toggle in settings
✅ Detect system theme at startup
✅ Use `ThemeMode.system` in Flutter
✅ Maintain contrast for accessibility:

- Background contrast with text ≥ 4.5:1
- Avoid pure black (#000000) — use `#121212` or `#1E1E1E`

🧠 Advanced UX Touches

Detail	Why it Matters
Animated tone selector	Adds playfulness
Loading shimmer	Avoids blank waits
Confetti when premium	Delightful moment
Long press on history	"Copy caption" option
Typing effect for AI	Feels human, exciting

✅ Tools You Can Use:

- Figma UI Kit Starter
- Heroicons
- Undraw Illustrations
- Coolors Palette Generator
- Lottie Animations
