## ➡ 📱 Custom Notification System for AutoText

We'll break this into:

1. 🛎 Types of Notifications
  2. 📅 Smart Notification Triggers (3/6/9/15/30 days etc.)
  3. 💬 Notification Content Ideas (funny, poetic, savage, Hindi movie style)
  4. 🛠 How to Implement This (Flutter + Backend)
- 

### 1 🛎 Notification Types

Type	Purpose
Inactivity Reminders	Re-engage users with funny/filmy quotes
Tone-Based Notifications	Showcase new or trending caption tones
Premium Upsell	Subtle reminders to upgrade
Daily Boost	Motivational or poetic quote with CTA
Feature Highlights	"Did you know you can auto-post captions?"
Caption Flash Alerts	AI-generated example of a trending caption

---

### 2 📅 Smart Trigger Plan

Days of Inactivity	Notification Style
3 Days	Funny/Hindi Dialogues
6 Days	Savage Reminders
9 Days	Emotional/Filmy Lines
15 Days	Nostalgic or Heartfelt
30 Days	Last chance, poetic

---

### 3 Sample Notification Lines

#### **After 3 Days (Funny + Filmy):**

- “Bhul toh nahi gaye humein? Caption karna ab bhi cool hai 😎”
  - “Bas 3 din mein bhool gaye? Aapki AI abhi bhi zinda hai 😭”
  - “Caption se break? App se bhi break? Come back brooo!”
- 

#### **After 6 Days (Savage):**

- “Even your ex didn’t ignore you this long 💀”
  - “Your captions are drying up like your DMs... open AutoText!”
  - “You ghosted me harder than your followers 🗿”
- 

#### **After 9 Days (Emotional):**

- “9 days without you... even AI misses you 😞”
  - “Tera intezaar toh humne kiya... caption bhi kar lo yaar 💔”
  - “Somewhere, a photo is waiting to be captioned...”
- 

#### **After 15 Days (Nostalgic):**

- “15 days without you. Remember the first caption we made?”
  - “Kya hum sirf ek caption relationship the?”
  - “It’s never too late to start posting like a pro.”
- 

#### **After 30 Days (Poetic Final Attempt):**

- “Ek mahina beet gaya... par yaadon ki tasveer ab bhi zinda hai.”
  - “Phir ek nayi kahaani likhne ki koshish karein?”
  - “Come back. The captions have missed you.”
- 

### Premium Upsell Ideas:

- “Unlock savage mode 🦴. Premium users are already killing it.”
  - “Funny captions are funny. Premium captions are savage.”
  - “You’ve hit your daily limit 😞 — want more? Upgrade.”
- 

### Tone-Specific Nudges:

- “Feeling poetic today? Let AI do the talking.”
  - “Romantic pic, boring caption? Let me fix that.”
  - “You + mood + AI = viral caption. Try it.”
- 

## 4 How to Implement This in Flutter

### Local + Push Notifications:

- Use `flutter_local_notifications` for local alerts
- Use `Firebase Cloud Messaging (FCM)` for push notifications

### Logic in Backend (Python or Firebase Functions):

- Save `last_active_timestamp` for each user

Run scheduled job (daily or every 6 hrs) to check:

now - last\_active > timedelta(days=X)

- 
- Send notification using FCM with pre-defined messages

### Notification Customizer:

Let users choose their **notification tone** in settings:

- Funny 😄
- Filmy 🎬
- Romantic 💕
- Savage 🔥
- Poetic ✨

You then send them messages from that category only.

---

### Bonus Engagement Features:

- 🔥 Weekly "Top Captions from Our Users" via notification
  - 🎯 "Caption of the Day" challenge
  - ⌚ Reminder: "Haven't posted in 3 days? Let's change that."
- 

### Summary: Must-Have Notifications

Trigger	Type	Sample
Inactive 3 days	Funny/Filmy	"Bhul toh nahi gaye humein?"
Inactive 6 days	Savage	"Even your ex didn't ignore you this long."
Inactive 9–30 days	Emotional/Poetic	"Al bhi intezaar kar raha hai..."

After caption limit	Premium Upsell	"Want more caption magic?"
1st time user	Tone Highlight	"Try the savage tone today 🙄"

---

Would you like me to now:

- Write a Firebase Function for triggering these notifications?
- Create a "Notification Tone" setting in your Flutter UI?
- Generate a full notification content list in a file?

Let's make this **the funniest, smartest app notification system ever** 🌟
